- 1.5 GHz Cpu
- 1 GB RAM
- 32 MB free hard disk space
- Graphics mode 1024 x 768

Program Overview

About Simnet UnInstaller

Simnet Uninstaller is an easy-to-use and absolutely free uninstaller manager to manage installed applications. Every application installed on your computer decreases the free hard disk space and reduces system's performance.

Simnet Uninstaller lets you decide easily to uninstall applications which you use seldom or which requires too much disk space.

Key Benefits:

- Removes applications completely without leaving any trace.
- Fixes invalid installation entries.

Features:

- Automatic system restore points for safety.
- Automatically product update.
- Smart and easy-to-use interface.
- Minimal installation, low memory and cpu usage.

Uninstalling Programs

What is does

Simnet UnInstaller fixes invalid installations and removes installed programs from your system.

How To Remove Installed Programs

1. Launch the Simnet UnInstaller 2011
2. Click on the **Manage Programs** button, Simnet UnInstaller collects program data and then displays a list of installed programs.
3. Select the program you would like to uninstall.
4. To start the uninstall process, click on the **Uninstall** button.
5. When the uninstall process has finished, UnInstaller will refresh the programs list.

Uninstalling Simnet UnInstaller

To uninstall Simnet UnInstaller

1. On the Windows taskbar, click **Start > Control Panel**.
2. Click the Programs and Features icon. (Add or Remove Programs)
3. From the Currently installed programs list, choose **Simnet UnInstaller**, and click Remove
4. Follow the instructions to remove **Simnet UnInstaller** from your computer.
